ST - Student

December Release Tutorials

Notes Describing Software Updates - This Release Only

December 2010 Release

* State-UG = User Group Enhancement

FM - Financial Management

AM - Account Management

General Input - FM\AM\GI

- 1 - Notes and attachments are now available for General Inputs, Budget Revisions and Budget Transfers on both PaC and Web.

Release
WI-UG Enhancement
Proj# 165770 **Key Feature**

Journ Entry/Journ Entry/Journ Entry(Import) - FM\AM\GI\JE\JEIM

- 1 - Journal Entry import processing has been updated to bypass inactive accounts. The import process identifies the inactive accounts on its exception report and completes. The imported journal entry is then added in WIP status.

Release
Correction
Proj# 1285655

Journ Entry/Journ Entry/Journ Entry(Main Screen) - FM\AM\GI\JE\JEMS

- 1 - When using the Quick Add feature, the Detail Line Descriptions will be retained when creating a Journal Entry.

Release
Correction
Proj# 1180690

SP - State Process

State Control Files/Load UFARS to local hard drive - FM\AM\SP\SC\LU

- 1 - Minnesota Users: The November 2010 revisions for the 2010-11 UFARS Codes (version 10.11.11.01) are now available.
- 2 - Minnesota Users: The October 2010 changes for the initial 2010-2011 UFARS Codes and Restricted/Unrestricted GRIDs (version 10.11.10.20) are now available.

Release
Enhancement
Proj# 1307725

Release
Enhancement
Proj# 1299638

YE - Year End

Account Management/1099M Processing - FM\AM\YE\AM\PR

- 1 - The 1099M manual add process now allows users to select SBAA vendors if applicable.
- 2 - The 1099M manual add process now uses the A/P contact and the vendor's 1099M address if it is available.
- 3 - The Mass Change 1099M Type process now includes vendors with a blank 1099M type when the process is set up to include "Only AP invoices that do not match vendor's default 1099M type."

Release
Correction
Proj# 1119627

Release
Correction
Proj# 1121924

Texas Options/Build Audit File - FM\AM\YE\TO\BA

- 1 - Texas Users: The Year End Build Audit File option now allows for a comma delimited (.CSV) format. This new format can be used to handle amounts that are over 12 digits.

Release
Correction
Proj# 1303549

Notes Describing Software Updates - This Release Only

December 2010 Release

* State-UG = User Group Enhancement

FM - Financial Management

AP - Accounts Payable

CP - Check Processing

Check Processing (Main Screen) - FM\AP\CP\CP

1 - Washington Users: Print Engine checks now process continuation voids correctly when the related invoices have very long descriptions. This change corrects the issue with incorrect report totals on the Check Register.

Release

Correction

Proj# 1245935

2 - Accounts Payable vouchers now include the continuation void check numbers. A separate line prints for each associated Continued Void Check number between the Vendor/Check (top) section and the Invoice section headings.

Release

Correction

Proj# 1250557

If a voucher takes up more than one page, the Continued Void Check lines appear on each page of the associated voucher.

CR - Check Reconciliation

Auto Reconcile From Bank File - FM\AP\CR\AR

1 - Locks will no longer occur during the AP Auto Check Reconciliation import process when users are in Student Management, General Tab and Financial Management, Check Reconciliation.

Release

Correction

Proj# 1300851

Export Checks to Bank File - FM\AP\CR\EC

1 - The AP "Export Checks to Bank File" (Positive Pay) option now handles the Wells Fargo Bank format.

Release

Enhancement

Proj# 1286369

IN - Invoices

Invoices Main Screen - FM\AP\IN\IM

1 - Wire Transfer numbers are now incremented for AP invoices that are created from Reoccurring Entries.

Release

Correction

Proj# 1174298

AR - Accounts Receivable

IN - Invoices

Invoices (Main Screen) - FM\AR\IN\IN

1 - The Accounts Receivable invoice clone has been updated to copy the batch number from the original invoice.

Release

Correction

Proj# 1108032

PM - Payor Master

Payor Master (Main Screen) - FM\AR\PM\PM

1 - The Payor Master Current Balance definition has been clarified.

Release

Correction

Proj# 1025740

Notes Describing Software Updates - This Release Only

December 2010 Release

* State-UG = User Group Enhancement

FM - Financial Management

AS - Assets

AM - Assets Menu

Fixed Asset Reports/Disposals, Additions Report - FM\AS\AM\FR\DA

- 1 - The Disposal/Additions Report now displays an asset correctly even though the first entry for the asset does not meet the criteria of the report ranges.

Release

Correction

Proj# 1265144

Fixed Asset Reports/Property Control Report - FM\AS\AM\FR\PC

- 1 - The Fixed Assets Property Control Report serial number field has been expanded to 25 characters.

Release

Correction

Proj# 1279408

PU - Purchasing

PO - Purchase Orders

Purchase Orders (Main Screen) - FM\PU\PO\PO

- 1 - A new "Print eCommerce Requisitions" option is available on the Web PO Form Definition screen to allow Print Engine to print both PO's and Requisitions.

Release

Correction

Proj# 1222641 **Key Feature**

- 2 - The Requisition/Purchase Order clone screen has been modified to bypass inactive accounts. When the original entry contains inactive accounts, the user sees a message, and the new requisition/purchase order is placed in a suspended status. Inactive accounts are not copied into the new requisition/purchase order.

Release

Correction

Proj# 1238061

- 3 - The PaC PO Clone screen has been updated to work with Account Clearance.

Release

Correction

Proj# 1259026

SE - Setup

CO - Codes

Account Management/Budget Types - FM\SE\CO\AM\BT

- 1 - The Budget Type maintenance screens for Budget Types now validate for duplicate short descriptions. These changes will not allow the user to save a Budget Types code when another code has the same short description.

Release

Correction

Proj# 1271286

Notes Describing Software Updates - This Release Only

December 2010 Release

* State-UG = User Group Enhancement

HR - Human Resources

DM - Data Mining

Data Mining (Main Screen) - HR\DM\DM

- 1 - Labels can now be printed in Data Mining that include a blank line. The system no longer removes blank lines between lines with data. **Release Correction**
Proj# 1005606
- 2 - An error message has been added to Data Mining that stops the report from printing if there is no level 1 field present in the report. **Release Enhancement**
Proj# 1078905
- 3 - The Data Mining report has been updated to break by fields even if those fields are not selected for printing on the report. **Release Correction**
Proj# 1076856
- 4 - Utah Users: The New EIP Status Values appear correctly in Data Mining. **Release Correction**
Proj# 1247405
- 5 - The capability to report on Account Quick Key fields for Pay Records, Sub Tracking and Positions has been added to Data Mining. **Release Correction**
Proj# 1266525
- 6 - The Data Mining report has been updated to print 2 decimal places for both check net pay and check net gross pay amounts. **Release Correction**
Proj# 1266612

EM - Employee Management

CO - Codes

Employee Management/General Codes/Calendar Codes - HR\EM\CO\EM\GC\CC

- 1 - A message has been added indicating that when you edit a specific day's memo, and the memo is more than 25 characters, the information will be truncated on the 12-month calendar. **Release KS-UG Enhancement**
Proj# 1153810
- Both monthly calendar reports are now available on the Web.

RE - Reports

Employee Data Mining/Rpt Gen-Data Mining (Main Screen) - HR\EM\RE\EP\EP

- 1 - Washington Users: The Assignment Breakdown fields have been moved to the Assignments Reference Table. This was done to allow the Assignment Breakdowns to print for each Assignment. **Release Enhancement**
Proj# 1282844

IT - Ins Track

Ins Track(Main Screen) - HR\IT\IT

- 1 - Employees whose names are longer than 30 characters can now be added in Insurance Tracking. **Release Correction**
Proj# 1269240
-

Notes Describing Software Updates - This Release Only

December 2010 Release

* State-UG = User Group Enhancement

HR - Human Resources

IT - Ins Track

Plan Setup - HR\IT\PL

- 1 - The capability to enter sub-plan information once and populate all appropriate Insurance Tracking Groups has been added to Insurance Tracking.

Release
WA-UG Enhancement
Proj# 999331 **Key Feature**

Pool Maintenance - HR\IT\PM

- 1 - When editing any Pool Master record, the user will no longer get an error. The record cannot be edited when the IT processing date is "All Days."

Release
Correction
Proj# 1253538

PA - Payroll

CP - Current Payroll

Calculate - HR\PA\CP\CA

- 1 - Texas Users: For Beta Payroll Calcs only, we added an exception to the payroll calculation process for negative TRS deductions and benefits.
- 2 - The Calculated Payroll warning message now includes the name of the person running the existing payroll process.

Release
TX-UG Enhancement
Proj# 195937

Release
Enhancement
Proj# 1270185 **Key Feature**

Payroll Worksheet/Payroll Worksheet(Main Screen) - HR\PA\CP\WP\WP

- 1 - A Security option has been added for the Payroll Worksheet Time Off Entry button. This will allow districts to set up security levels for users entering payroll worksheets along with time off entries.

Release
Correction
Proj# 1075895

TrueTime - HR\PA\CP\TT

- 1 - An additional parameter has been added to the Missing Time Sheet report. This parameter allows missing time sheets to show that the time sheet is held due to missing paperwork. This is based on the flag in the employee's profile to hold True Time timesheets.
- 2 - The Payroll True Time Worksheet Update has been modified to allow for dual annualized jobs. In this situation, overtime will be paid out only on the second annualized job.

Release
Correction
Proj# 1002383

Release
Correction
Proj# 1182241

Also, the overtime calculations have been modified when exception pay is used. The exception hours are now included when calculating how many OT hours come from each job.

- 3 - The Missing Time Sheet report has been updated so that an unsubmitted time sheet with only time off transactions will be included on the Missing Time Sheet report.
- 4 - The payroll update process has been updated so that overtime is allocated when a partial time sheet is processed completely. The overtime will be allocated correctly when there is more than one job used during the workweek.
- 5 - The weekly overtime for timesheets will be paid out when all timesheets for the employee for that week have been paid out.

TO - Time Off

Time Off - WA\EM\TO

- 1 - The new version of the Employee Access Time Off request system is no longer Beta. It is now available to everyone who has Employee Access Time Off Requests.

Release
Enhancement
Proj# 1218266 **Key Feature**

The Old Time Off system is still available under a button called "Previous Version of Time Off". This button will be available until the June 2011 release. At that time, the Old Time Off system will be permanently removed.

An option has been added so districts can hide the "Previous Version of Time Off" button any time before June 2011 if they choose.

- 2 - Beta Time Off: Negative Time Off Requests can now be entered for less than one hour. When an employee has an approved time off request, the employee will be able to enter a time off request against the approved time off as a negative amount for less than one hour.

Release
Correction
Proj# 1257312

- 3 - Beta Time Off: The Time Off Requests system has been updated to require a description when the system option is set to require one.

Release
Correction
Proj# 1300278

- 4 - The Time Off Request Add screen will no longer display a date range option if the employee does not have a Time Off Calendar in the Employee Profile.

Release
Correction
Proj# 1302108

Also, the Mass Delete Time Off Requests process has been updated to allow deleting of a specific Date Range of requests.

December 2010 Release

* State-UG = User Group Enhancement

WS - Web Student Management

AD - Admin

FM - Fee Management

Customer - WS\AD\FM\CU

1 - A new configuration option to 'Retain Charges When Voiding Payments' has been added so that the charges on a receipt that is being voided are not set automatically to be voided as well. The option allows a District to decide how the voiding will work. This option appears in Fee Management Configuration and will affect voiding within the Customer button.

Release

Enhancement

Proj# 1238433

2 - The following changes have been implemented:

Release

Correction

Proj# 1259129

1. Made the Change Amount option available on fees that have a system discount applied to them.
2. Opened up a number of the Maintain options to allow users more options for automatic adjustments and making the options more helpful.
3. Receipt Entry has been corrected so that Negative values are retained when added to the Receipt.
4. Updated the Suppress Auto Apply conversion to handle payment plans properly. The conversion will also remove system discounting records that were issued for the current school year in PaC since those records are not compatible with system discounting on the Web. Previous School Years' discounts will not be affected. Users who use prorating/discounting in PaC and want to convert to the Web should do so immediately after Year End processing has been completed.
5. Updated the Maintain Payor Setup to allow users to change their default payment plans.
6. Added Fee Notes functionality to customers and payors browses.

3 - We corrected an issue where the Fee History screen was showing information in the Course/Sec and Class Name columns for fees that were not Course Fees.

Release

Correction

Proj# 1297492

Payor - WS\AD\FM\PA

1 - The Student Selection list now defaults to the first active student in the list when adding a Charge or Receipt in Fee Management. This will help limit the fees that might be assigned accidentally to inactive students in the family. The active student will also have an asterisk next to his/her name.

Release

Correction

Proj# 1297429

2 - When a district is not using the 'Only Allow Discounting/Prorating for Waived Students' option, the district is now able to add a payment type of Waiver for any customer/payor. This can be done by adding a receipt for the customer/payor and selecting waiver for payment code.

Release

Enhancement

Proj# 1297475

Product Setup/Utilities - WS\AD\FM\PS\UT

1 - Students may be Fee Management customers in entities other than their default entity. The Electronic Payments Made utility in Fee Management now checks to see whether the district is using SBAA for updating the general ledger. If so, the utility creates payments and fees in the entity indicated by the account number in the import file.

Release

Correction

Proj# 1291495

Product Setup/Utilities/Import Electronic Payments Made - WS\AD\FM\PS\UT\IE

1 - The Import process will now apply payment to the earliest charges when multiple fees of the same type exist.

Release

Correction

Proj# 1211460

Reporting/Credit Balance Report - WS\AD\FM\RE\CB

1 - The Credit Balance Report has been updated to find the appropriate Credit Balance Bill code for the report. Previously, the report printed a blank page when a district had an existing "Credit" bill code prior to converting to the Web Fee Module.

Special Ed Tabs/Evaluation Information/Evaluation Information Secured Items/Evaluation Forms/Wisconsin Forms/Notice of Reevaluation (RE-1) - WS\SS\SE\TB\E\INEF\WIAO

1 - We corrected an issue where the Request for Consent date was not being pulled correctly on the RE-1 form. Now, the correct date will show on the RE-1 form.

Release

Correction

Proj# 1259788

Special Ed Tabs/IEP Information/IEP Information Tab - WS\SS\SE\TB\E\IE

1 - The Adjusted Placements now display correctly as long as the Service Begin date is unique. Previously, if the Special Ed IEP Tab had different placements with the same School Year, Service ID, Program and Sequence Number, this would cause some or all of the placements to no longer display.

Release

Correction

Proj# 1268258

Special Ed Tabs/IEP Information/IEP Information Secured Items/Clone IEP Information - WS\SS\SE\TB\E\ISICI

1 - The IEP Clone process has been updated to allow cloning of placements that have a matching Service ID, Program Number and Sequence Number. The original validation prevented records with the same Service ID and School Year from being selected.

Release

Correction

Proj# 1264930

2 - Locked IEP forms will now clone as WIP forms when cloning them from the current IEP to the new IEP.

Release

Correction

WS - Web Student Management

ST - Student

Student Data Mining - WS\ST\DM

- 11 -The following changes have been made to make Data Mining on the Web easier to use:
1. On the Browse screen, user can select Reports to Display; All Reports or just their own.
 2. When selecting a Report not created by the User, the edit button becomes a View button.
 3. Report Information Maintenance Edit screen now opens from main screen.
 4. The Report Information screen now allows the user to navigate to other reports. The user will click Report Name, which is blue and underlined. Once another user's report is selected, then the Edit and Delete buttons are removed.
- 12 -Kansas Users: The Early Childhood information on the NCLB-2 tab has been added to Data Mining.
- 13 -New Jersey Users: The Eighth Technological Literacy field on the NJ/NCLB tab is now available in Data Mining.
- 14 -Florida Users: The Alternate Social Security Number field (staff) has been added to Data Mining.
- 15 -New Jersey Users: The Resident Municipal Code on the student Entry/Withdrawal record is now available in Data Mining.
- 16 -New Jersey Users: The State Withdrawal Type has been added to the Data Mining field options.
- 17 -Washington Users: The Special Education Referral Information area has been added to Data Mining.
- 18 -The Online Registration Status field found via menu path Web Student Management> Families> Family Access> Online Registration has been added to Data Mining and may be printed on Data Mining Reports.
- 19 -Florida Users: The following changes have been made to Migrant fields in Data Mining:
1. The Migrant Yes/No field has been removed from the NCLB tab.
 2. The Migrant Yes/No field has been added to the Special Programs Migrant tab.
 3. The COE Status As Of Date field has been added to the Special Programs Migrant tab.
- 20 -An option has been added to the Data Mining grade bucket fields to print the Gradebook grade if no posted grade exists. This option will pull the student's grade directly from the teachers' gradebooks, and not backups.

Notes Describing Software Updates - This Release Only

December 2010 Release

* State-UG = User Group Enhancement

WS - Web Student Management

ST - Student

Student Profile - WS\ST\PR

1 - The issue that caused a Student record to be created without an alpha key when two users were trying to add the new student at the same time has been resolved.

Release

Correction

Proj# 1240608

2 - Print Envelope buttons have been added to the following tabs: General Profile and Family.

Release

Enhancement

Proj# 1247637 **Key Feature**

3 - Washington Users: The Number of Months in US Attendance and the corresponding Comment are now stored in the STUDENT table.

Release

Enhancement

Proj# 1265668

Note: During the Release load process, a conversion will run automatically to move existing data to the new location, and the fields will be added to Data Mining.

PS - Product Setup

Configuration/Custom Forms Setup - WS\ST\PS\CF\CF

1 - A help icon was put in place to explain security for custom forms. The only way for a teacher to be given access to a Custom Form from within Educator Access Plus is to secure the Custom Form and assign it to the Security Group that teacher belongs to. If the user has security to WS\ST\CF, a Custom Form is visible to all users if it is Unsecured.

Release

Correction

Proj# 1238126

Configuration/Identification Number Settings - WS\ST\PS\CF\IN

1 - The option to turn on the Fill button for Other ID has been moved from an option granted with security to an option controlled under the Identification Number Settings.

Release

Correction

Proj# 1244370

Utilities - WS\ST\PS\UT

1 - A Mass Change Entity Categories utility has been added to the system to allow users to mass add or delete categories on the Student Categories tab.

Release

IL-UG Enhancement

Proj# 612062

2 - A new utility has been added on the Web that will mass create Provision 2 applications using a user-defined effective date and lunch code.

Release

NM-UG Enhancement

Proj# 984262

Utilities/Mass Assign Title I Records - WS\ST\PS\UT\AT

1 - Idaho Users: A correction has been made so the Mass Assign Title I utility processes correctly. Previously, it did not process records properly when individual schools were selected.

Release

Correction

Proj# 1275337

Utilities/Student Change History - WS\ST\PS\UT\CH

1 - Entry/Withdrawal change history has been added to Student Change History.

PS - Product Setup

Utilities/Mass Change Entry/Withdrawal Records/E/W General Information - Mass Change - WS\ST\PS\UT\EWGI

- 1 - Florida Users: The utility for E/W General Information - Mass Change (under Mass Change Entry Withdrawal Records) has a drop-down field for Hurricane Affected. This field now has codes of E, Q, W, Y and Z that can be selected.

Release
Correction
Proj# 1295563

Utilities/Student Mass Change - WS\ST\PS\UTMC

- 1 - An Individual Student selection option has been added to the Mass Change Utility. This gives the user the ability to select individual students to process for the Mass Change Utility other than just entering a range of students.

Release
Enhancement
Proj# 1072014

Utilities/Merge Student Records - WS\ST\PS\UTMS

- 1 - The Student Merge process has been modified to allow users to merge one student record into another even if the record being merged into is a Food or Fee Management Customer.

Release
Enhancement
Proj# 1230546 **Key Feature**

Utilities/Mass Assign Transportation Category - WS\ST\PS\UTTC

- 1 - The process will now run properly when users select individual calendars. Previously, users had to check the Select All Calendars option.
- 2 - We added an option to the utility to allow students to be updated based on Busing Status. This will allow users to update records for Bussed Only, Non-Bussed Only, or All students. The same range option has also been added to the Mass Delete Transportation utility.

Release
Correction
Proj# 1224025

Release
Enhancement
Proj# 1290217

RE - Reports

Permit Code Report - WS\ST\RE\PC

- 1 - The Permit Code Report has been updated to print in landscape format to allow longer addresses to print without being cut off. Totals have also been added to the report.

Release
Enhancement
Proj# 1267916

Student Registration/Emergency Form - WS\ST\RE\SF

- 1 - A correction has been made so it will print each student correctly when more than one student is selected via individual selection. Previously, when multiple students were chosen it would print a blank page.

Release
Correction
Proj# 1268553

Student Information - WS\ST\RE\SI

- 1 - An option has been added to this report to print confidential phone numbers. The new option is listed under Print Options and is labeled "Print Confidential Phone Numbers."

Release
Correction
Proj# 1214348

SA - Student Access

Users - WS\ST\SAUS

- 1 - A Student Access login now can now be up to 25 characters long. This was increased from 15 characters.

Release

December 2010 Release

* State-UG = User Group Enhancement

WS - Web Student Management

ST - Student

SI - Student Browse\Profile Secured Items

Student Indicators - WS\ST\SIND

- 1 - We corrected the security lookup for the Student Indicators on the Student Profile tab. The program was checking security incorrectly, using the Menu ID for the Student Info pop-up screen.

Release

Correction

Proj# 1261335

Notes - WS\ST\SINO

- 1 - Users with security access can now edit or delete unprotected notes that were entered by other users within the system. Previously, only the user who created the note could edit or delete the note.

Release

IL-UG Enhancement

Proj# 35120

Student Locator - WS\ST\SISL

- 1 - An Attendance column was added to the Student Locator screen so users can quickly identify whether a student is absent.

Release

WI-UG Enhancement

Proj# 1160503

Users will be able to view the Current Period column only if they have security access to the Attendance Tab or Attendance by Student screens.

- 2 - An Attendance column has been added to the Student Locator screen so users can quickly identify whether a student is absent.

Release

KS-UG Enhancement

Proj# 1166842 Key Feature

Users will be able to view the Current Period column only if they have security access to the Attendance Tab or Attendance by Student screens.

Student Browse - WS\ST\ST

- 1 - Birth City under the student browse (General - Birth History) is now spelled correctly.

Release

Correction

Proj# 1265582

Student Browse\Profile Tabs - WS\ST\TB

- 1 - The Phone number field in the Extra Information area of the Family Tab on the Student Profile now displays "(conf)" if the number is flagged as confidential.

Release

Correction

Proj# 1285591

- 2 - A button has been added to allow users to access the Student Information screen from Student Profile.

Release

Correction

Proj# 1304176

The button is a blue "i" that is located at the top of the screen between the student's name and the navigation arrows.

Activity Tab - WS\ST\TBAC

- 1 - We corrected an issue which prevented the Eligibility History button from opening either when there was no current year activity record for the student, or the filter was set to current year only with no current year activities. The button now works even when there are no current year activity records.
