

Enrollment/Registration Form

SM\RO\QP

Enrollment/Registration_Form - Run

Crystal Rport Viewer

This Crystal Report may take several minutes to process. Run Report

Enter prompt values.

Enter Entities to Process (3 digit school code) > Selected Values (add selection to right side of screen)

Enter a student alphakey or select "ALL"

- if running for entire school choose ALL from the drop down box on both start of range and end of range
- if running for a specific student enter name key in the Enter a Value area

Add Range

To populate Selected Values: area

Choose the student's Next Year Status or select "BOTH"

Select the student's current status or select "BOTH"

I would probably choose to run both by A (active) but that is your choice

Enter the date that the form needs to be returned by:

A date must be entered in the shown format yyyy-mm-dd

OK

This report is a pre made form that does not allow us *any flexibility*. I hope that by next year we will be able to create our own.
